Overview

Open XML Converter allows you to convert Open XML files that were created in Office 2008 for Mac or Office 2007 for Windows so that you can open, edit, and save them in earlier versions of Office for Mac. Open XML Converter can convert Word documents, Excel workbooks, and PowerPoint presentations that are in the Open XML Format so that you can open and edit the files in Office 2004 for Mac and Office v. X for Mac. You can choose to convert and open one file, or convert a large number of files.

This update contains several improvements to enhance stability and performance. In addition, this update includes fixes for vulnerabilities that an attacker can use to overwrite the contents of your computer's memory with malicious code. For more information about this update, please visit the [Microsoft Web site](#).

[↑ Top of page](#)

System Requirements

- **Supported Operating Systems:** Apple Mac OS X

Important To open converted documents, you must have Office 2004 11.4.0 or later, or Office v. X 10.1.9 or later installed on your computer. For the best experience, we recommend that you install the [Office 2004 11.5.1 Update](#) or a later update for Office 2004 for Mac.

To verify that you have installed the Office 2004 11.4.0 Update or a later update, select the Microsoft Component Plugin file in Microsoft Office 2004/Office on your hard disk, and then on the **File** menu, click **Get Info**. To verify that you have installed the Office v. X 10.1.9 Update or a or later update, select the Microsoft Component Plugin file in Microsoft Office X/Office on your hard disk, and then on the **File** menu, click **Get Info**.

Additionally, your computer must meet the following minimum requirements:

- **Supported Operating Systems:** Apple Mac OS X
- **Operating System Versions:** Mac OSX version 10.4.9 (Tiger) or a later version of Mac OS

Note To verify that your computer meets these minimum requirements, on the **Apple** menu, click **About This Mac**.

Instructions

To install this download

1. Print this page if you want to use it as a reference when you are offline.
2. Quit any applications that are running, including all Office applications, Microsoft Messenger, and Office Notifications, because they might interfere with the installation.
3. Make sure that your computer meets the minimum system requirements.
4. Click **Download**, or click the link for the language version that you want.
5. Follow the instructions on the screen to save the file to your hard disk. If you are using Safari, the downloaded file is saved to the desktop unless you specified a different location in the **Preferences** dialog box of Safari. To check your preferences, on the **Safari** menu, click **Preferences**, and then click **General**.
6. Double-click the file that you downloaded in step 5 to place the Open XML File Format Converter for Mac 1.0.1 volume on your desktop, and then double-click the **Open XML File Format Converter for Mac 1.0.1** volume to open it. This step might have been performed for you.
7. In the Open XML File Format Converter for Mac 1.0.1 volume window, double-click the **Open XML File Format Converter for Mac 1.0.1** application to start the installation process, and then follow the instructions on the screen.
8. If the installation finishes successfully, you can remove the application installer from your hard disk. To remove the application installer, first drag the **Open XML File Format Converter for Mac 1.0.1** volume to the Trash, and then drag the file that you downloaded to the Trash.

Note This update is also available from Microsoft AutoUpdate, an application that can automatically keep your Microsoft software up to date. To use AutoUpdate, open an Office application, and then on the **Help** menu, click **Check for Updates**.

To remove this download

1. If Open XML Converter is running, quit the application.
2. On your hard disk, locate the converter application.
3. Drag the converter application to the Trash, and then on the **Finder** menu, click **Empty Trash**.
4. To remove your existing converter application preferences, in /Users /username/Library/Preferences/Microsoft, delete the com.microsoft.OfficeConverter.plist file.

Important To remove all converter files from your computer, in /Library /Application Support/Microsoft, delete the HV1.0, MAU2.0, and Office Converter Support folders. If other Microsoft software, such as Microsoft Office 2008 for Mac, Microsoft Remote Desktop Connection Client for Mac, Microsoft Messenger, or Microsoft Expression Media is installed on your computer, do not delete any of the files in /Library/Application Support/Microsoft because these files are used by other Microsoft applications.

 /Library/Application Support/Microsoft/Office Converter Support/Open XML for Excel.app
 /Library/Application Support/Microsoft/Office Converter Support/Open XML for Excel.framework
 /Library/Application Support/Microsoft/Office Converter Support/Open XML for Word.app
 /Library/Application Support/Microsoft/Office Converter Support/Open XML for Word.framework
 /Library/Application Support/Microsoft/Office Converter Support/pptfc.app
 /Library/Application Support/Microsoft/Office Converter Support/SmartArt.framework

If Microsoft Office 2004 for Mac is installed on your computer, the following fonts

are installed to /Library/Fonts/Microsoft.

- Cambria
- Calibri
- Consolas
- Constantia
- Corbel
- Candara

If you have trouble installing this download, or using the converter application after you install it, try the following:

- Restart your computer and try installing the download again.
- Make sure that the user account you use to authenticate the application installer is an administrator account. For more information about administrator accounts, see Mac Help.
- If you experience problems opening the converter application after you install it, make sure that /Library/Application Support/Microsoft/Office Converter Support is installed on the startup volume. If it is missing, or if any of the files listed above are missing, try installing the converter application again.
- If you continue to experience problems opening the converter application after you install it, restart your computer, or try installing the converter application again.
